PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
- The last paragraph in the Abstract needs a conclusion (line 18). - In some places was used <i>Ibadan</i>, but I found <i>Moniya Ibadan</i> in the Methodology. Are they different? If they are different places, you should to explain. Please use the same name in all text. - The topography of the building location and roof geometry belong to project step, so they need to be included as primary causes. - For a better understanding, I suggest to change the numerical order for General <i>Causes of Roof Failures. Poor Workmanship</i> should be 4.3.1.1 insted of 4.3.2, and so on. - Table 2 is in wrong place. It should be after its discussion. - Table 3 should be replaced after its discussion (not at the end of section). - All zeros should be to removed in the numerical ordering (e.g. 2. insted of 2.0).
