| Journal Name:            | <a href="#">Current Journal of Applied Science and Technology</a>                       |
| Manuscript Number:       | <b>Ms_CJAST_39618</b>                                                                   |
| Title of the Manuscript: | <b>In vitro callusing of CARNATION (Dianthus caryophyllus L.) cv. Scania and Indios</b> |
| Type of the Article      | <b>Original Research Article</b>                                                        |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                     | <b>Reviewer's comment</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | <b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | <p>1- <b>ABSTRACT</b><br/>Re write the abstract, lack of English sentences for example</p> <ul style="list-style-type: none"> <li>- (Different explants tried were leaf segments.....),</li> <li>- (besides nodal segments from two environments i.e.....)</li> </ul> <p>2- <b>INTRODUCTION</b><br/>- There were no references refer to tissue culture of Carnation in the introduction.</p> <p>3- <b>MATERIALS AND METHODS</b><br/>- What is the type of data analysis in the research? ( should be mentioned by detail)</p> <p>4- <b>RESULTS AND DISCUSSION</b><br/>- Where is the discussion in (4.1.3.1) <b>Callusing from leaf explant of cv. 'Scania' ?</b></p> |                                                                                                                                                                                      |
| <b>Minor</b> REVISION comments      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                      |
| <b>Optional/General</b> comments    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                      |
