

SDI FINAL EVALUATION FORM 1.1

PART A:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	MS: 2011/BJAST/1030
Title of the Manuscript:	<i>Effect of Recycled Coarse Aggregate of on the Compressive Strength and Rupture Modulus of Concrete</i>

PART B:

	FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
For comments of Reviewer 1 and author's feed back	In the Abstract I think this sentence not necessary : The investigations were carried out in the Department of Civil Engineering and Department of Mechanical Engineering of the University of Benin, Nigeria between September 2010 and August 2011.	
	In the Abstract this sentence is not completed: At early stages of substitution, there was no significant change in the modulus of rupture but at higher percentages of substitution. Please modify it.	
	It is better Modulus of rapture instead of Rapture modulus be used in the title and all manuscript.
