

SDI Review Form 1.6

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_45505
Title of the Manuscript:	Oil Pipeline Leak Detection And Localization Using Wireless Sensor Networks
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Topic of the paper is interesting. Author/Authors have to improve chapter "Block Diagram". There are only two figures on the chapter currently. Authors should add text – as description of the diagrams. The same in chapter "Field Sensor Section". Similar situation in case of chapter "Network Operation". I suggest to change structure of the paper. Author/Authors should think about a few, maybe 4-5, chapters. It will be better for readers. In my opinion Author/Authors should add some numerical data related to the problem.	
<u>Optional/General</u> comments
