

SDI Review Form 1.6

Journal Name:	Chemical Science International Journal
Manuscript Number:	Ms_CSIJ_43499
Title of the Manuscript:	Adsorption of 2,4-dinitrophenol on activated carbon prepared from cotton cakes: non-linear isotherm modeling
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	• in abstract, please add the target name. • why you want to catch 2,4-dinitrophenol? • line 27, the name of the target is wrong. • you did several analysis as shown in Figures and Tables. Why you want to do such a lot of analysis? what do you want to know?	• The target is 2,4-dinitrophenol • It is 2,4-dinitrophenol • We tried to do several analyzes in order to better explain the adsorption phenomenon by highlighting as much as possible the heterogeneity of the surface of the different coals.
Minor REVISION comments		
Optional/General comments
