

Journal Name:	Chemical Science International Journal
Manuscript Number:	Ms_CSIJ_43904
Title of the Manuscript:	Analysis of Pure and Ag-Doped TiO2 Thin Films Deposited by Field Assisted Spray Pyrolysis.
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	This manuscript reports synthesis of TiO2 and Ag-Doped TiO2 thin films deposited by field assisted spray pyrolysis. I should be accept after minor revision. 1. The language needs substantial improvement, please revise the language carefully. 2. The morphologies of SEM should be analysed and added in revised manuscript. The particle size of product should be calculated form XRD.	Thank you Sir for the previewing my work. I sincerely appreciate it. Base on your points, 1) The language has been revised 2) The result of the Optical Microscope has been added to the revised manuscript and the particle size of the product is added too.
<u>Optional/General</u> comments
