PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	A. The writing of abstract should be more succinct following the general guideline 1. Problem statement 2. Methods 3. Results 4. Conclusion	The abstract have been reviewed as highlighted in the abstract.
Minor REVISION comments	1. Please make sure that you subdivided your article in a correct manner: Divide your article into clearly defined and numbered sections. Subsections should be numbered 1, 2, (then 1.1, 1.1.1, 1.1.2), 1.2, etc. (the abstract is not included in section numbering). 2. Lack of literature review: you are requested to add a comprehensive literature review to the introduction. Please add some review of the previous works to the introduction. You should review at least 10 sources and cite them properly and include the references for each citation in the reference list. 3. 2) Inconsistency of the reference and citations: You have only few in-text citations while many references in the reference list with no corresponding citations in the text.	All the observation raised here have been reviewed as highlighted in the text.
Optional/General comments
