

SDI Review Form 1.6

Journal Name:	Chemical Science International Journal
Manuscript Number:	Ms_CSIJ_44596
Title of the Manuscript:	POLAROGRAPHIC AND VOLTAMMETRIC INVESTIGATION OF SUDAN I
Type of the Article	1. Original research papers

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The manuscript focused on the voltammetric and polarographic reduction of the 1-phenylazo-2-naphthol on a hanging mercury drop electrode (HMDE) and static mercury drop electrode (SMDE), which is very interesting and useful. It is recommended to accept after minor revision. However, some parts need to revise, which are listed below as follows. The main points need to revise before publication. [1] The new relate references are needed to add in the revised manuscript.	We have studied about similar compounds and techniques. We have added a lots of references about the work dependent on your suggestions The authors thanks to Referee for their contrubites
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
