

SDI Review Form 1.6

Journal Name:	Chemical Science International Journal
Manuscript Number:	Ms_CSIJ_45441
Title of the Manuscript:	Effect of methyl jasmonate and ethephon exogenous application on phenolic compounds accumulation in cotton [Gossypium hirsutum L. (Malvaceae)]
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>This paper deals with the effects of applications of methyl jasmonate and ethephon exogenous on phenolic compounds accumulation in cotton. The chemical applications is a important fact effected the compositions of agriculture products; so I support it to be published after revision.</p> <p>1, the title of table 1 must be in the top of the table not below the table; 2, the paper mainly describe the determination of phenolic compounds but not directly related to the title issue. 3, the deferent amounts of the chemicals may have deferent accumulations; 4, how about controlled case?</p>	<p>1- We will correct</p> <p>2- In this work, we have demonstrated that methyl jasmonate and ethephon stimulate the biosynthesis of phenolic compounds in cotton as mentioned in the theme.</p> <p>3- 4-The two molecules used in this study are of natural origin and therefore have no secondary effects.</p>
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
