

**SDI Review Form 1.6**

Journal Name:	<a href="#">Chemical Science International Journal</a>
Manuscript Number:	Ms_CSIJ_44596
Title of the Manuscript:	POLAROGRAPHIC AND VOLTAMMETRIC INVESTIGATION OF SUDAN I
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	It is well known that the reduction of hydrazobenzene occurs at potentials that are 500 mV lower than the potential of azobenzene reduction (Holleck et al., Electrochim. Acta 15 (1970) 645.). In the present manuscript only one wave or peak can be observed. It can be ascribed to the reduction of sudan to hydrazosudan. So, in the scheme 2, on page 10, the reduction of hydrazosudan to amines should be omitted because it was not observed in this experiment.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

**Reviewer Details:**

Name:	Milivoj Lovrić
Department, University & Country	Croatia
