

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<a href="#">Chemical Science International Journal</a>
Manuscript Number:	Ms_CSIJ_45441
Title of the Manuscript:	Effect of methyl jasmonate and ethephon exogenous application on phenolic compounds accumulation in cotton [Gossypium hirsutum L. (Malvaceae)]
Type of Article:	Original Research Article

### PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors of the manuscript entitled "Effect of methyl jasmonate and ethephon exogenous application on phenolic compounds accumulation in cotton [Gossypium hirsutum L. (Malvaceae)]" corrected some of the issues included in my previous comment. However, the most important, that is the improvement of Introduction and Discussion were not amended. The paper still does not present sufficient scientific background in the Introduction and the authors do not want to discuss their results with other publications. Sadly, the authors did not answer all the comments included in the previous review, thus I still would have some questions. In general, the paper still needs improvement and surely addition of the infection test results would increase the value of this manuscript
