

SDI Review Form 1.6

Journal Name:	Chemical Science International Journal
Manuscript Number:	Ms_CSIJ_45441
Title of the Manuscript:	Effect of methyl jasmonate and ethephon exogenous application on phenolic compounds accumulation in cotton [Gossypium hirsutum L. (Malvaceae)]
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	This paper deals with the effects of applications of methyl jasmonate and ethephon exogenous on phenolic compounds accumulation in cotton. The chemical applications is a important fact effected the compositions of agriculture products; so I support it to be published after revision. 1, the title of table 1 must be in the top of the table not below the table; 2, the paper mainly describe the determination of phenolic compounds but not directly related to the title issue. 3, the deferent amounds of the chemicals may have deferent accumulations; 4, how about controlled case?	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
