Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>However need revision on the abstract, methodology as a way improving the document to be powerful. I have also made my contribution in the document.</p> <p>Abstract Is so much detailed. Needs to reduce by removing details</p> <p>Introduction –. Need to backed by status of livestock in the country and veterinary services distribution and service offered, availability of drugs etc</p> <p>Methods Need to be supported with the institution where the author is from. The source of the literature –is from university library or national library or internet or country achieves</p> <p>Discussion Too short- need to be expanded to show the policy implication</p>	<p>Abstract and Methodology have been revised. Thank you for the contributions!</p> <p>I have revised as required.</p> <p>I have already given the total population of livestock in Nigeria. Information concerning veterinary services have been provided at the end of “Discussion”.</p> <p>I have improved on “Methodology”</p> <p>I have expanded the “Discussion”</p>
