

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

|                          |                                                                                                                                                                                                                                                                                                  |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">European Journal of Medicinal Plants</a>                                                                                                                                                                                                                                             |
| Manuscript Number:       | Ms_EJMP_40565                                                                                                                                                                                                                                                                                    |
| Title of the Manuscript: | Various brewing methods for green coffee <i>Coffea arabica</i> and <i>Coffea canephora (robusta)</i> with effect on Polyphenolic contents and Effect of Brewing time on Phytochemicals, Total Flavonoid and Phenolic Content on Green and Roasted coffee Arabica, Robusta and Monsooned Malabar. |
| Type of Article:         | Original Research Article                                                                                                                                                                                                                                                                        |

**PART 2:**

| FINAL EVALUATOR'S comments on revised paper (if any)                                                                                                                                                                                                                                                                                        | Authors' response to final evaluator's comments                                                                                                                                                                                                                                                            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| The authors have to review "Abbreviations". There are some mistakes including the use of "Coffea canephora", when in the text is "Coffea robusta". The first version is more commum. So, I suggest they standardize in the whole document. Also, revise space after each pontuation (comma, colon...). It is necessary the standardization. | Abbreviation part have been reviewed and corrected.<br>Mistakes in the use of 'Coffea robusta' have been corrected.<br>Revision for Standardization of the whole document has been done for spaces, comma, and colon etc. including references.<br><br>All the corrections have been highlighted in green. |
