PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1) The author should show all of menstrooms in the supplement in detail. Because, such menstrooms may affect liver function. 2) Why the supplement affected females?	(1) We have added a detailed list of all fillers that are no vitamins or minerals. In the discussion, we added text in which we raised this point also. (2) We do not know why, but we added a sentence in the discussion about this.
Minor REVISION comments		
Optional/General comments	1) Such supplement is taken among a lot of persons in the world. This manuscript must be published as soon as possible after revised.	(1) no comment
