PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	(1) It is not difficult to have a control group with a placebo. The reason is not considered. (2) How about subject's basic daily intake on multivitamin and mineral supplement. It is better if authors take a Dietary questionnaire, to have some basic data	(1) It was not possible for us to get a placebo. This is added into the text in the M&M section and the discussion. (2) Also additional text on the influence of nutrition has been included in the M&M section.
<u>Minor</u> REVISION comments	(1) Fig.2 and Fig.3 is FY, FO should be MY and MO, what are different column mean , in Fig 2, and Fig 3?	(1)The errors have been corrected. In addition, we have included a new lay-out of Figure 2 and 3
<u>Optional/General</u> comments
