Manuscript Number:	Ms EJNFS_39827
Title of the Manuscript:	Detection of Oxytetracycline Residues in Table Eggs in Khartoum State
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I have read through the article once again as well as the feedback of the authors and can see a considerable improvement and therefore have no hesitation in recommending the publication of the article subject to minor typographical errors and few clarifications which I have highlighted as comments in the text.	Thanks for valuable comments... 36 a1: Tetracyclines are group of antibiotics have members include: oxytetracycline, chlortetracycline and tetracycline. 38 a2: changed 42 a3: changed 43 a4: inserted 50 a5: removed 51 a6: samples collected from 18 sale points from 18 different farms. Eggs come from farms to buy in sale pointes. 85 a7: inserted 66 a8: added 73 a9: added 82 a10: removed 86 a11: removed 112 a12: done 114 a13: done 136 a15: removed 139 a16: corrected to Trueness' 147 a18: changed 148 a19: inserted 160 a20: added 168 a21: removed 172 a12: done
