**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	First of all the manuscript create a confusion regarding manuscript style, is it review article or research article. If it is review article authors may advice kindly read out the journal guidelines and rewrite the manuscript as per review article. If it is research article than provide important information's as suggested in the manuscript. Kindly read all the suggestions very carefully and modified/ corrected the manuscript accordingly. The manuscript is very informative and useful component as alternative functional food supplement but need revision and modification before publication.	Thanks for critically reviewing the paper. We have rewritten the paper as suggested and aligned with journal guideline for review paper. Removed materials and methods and result section as it is not a research paper. Suggestion were incorporated in revised manuscript.
<b>Minor</b> REVISION comments	Each and every part of the manuscript need corrections as suggested in the manuscript. Reference style must be followed as per journal guidelines and use appropriate abbreviation of the journal name. Tables title and format as per suggestion or as per journal format.	All the suggestions were incorporated in revised manuscript. Reference style also changed as per journal guidelines. Title of the Table included and formatted as suggested.
<b>Optional/General</b> comments	In my opinion the manuscript may be accepted after corrections and modification as suggested.	Thanks
