SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> • Include the source of reference for Figure 1 • Write Tables 2 and 3 title on top of the table as in Table 1. • Units for parameters Crude protein and fibre are (g) in the table and % in the text. Put the correct unit. • Calcium value (803.7) in Table 1 does not correspond with the value (0.804) in the text. • I suggest that your reporting in the content (Rows 98&99) on vitamin A, C and E are in order as it is in Table 1. • I suggest that in the references you remove the issue and remain with volume for consistency since some journals do not have an issue. Eg. J of Bio Sci. 2004; 4: 711-15. NOT J of Bio Sci. 2004; 4(6): 711-15. • Only materials and methods as well as results are reported in this review study no discussion was included, I therefore suggest that sections 2 and 3 just be highlighted not as sections since this is a review study. Another suggestion is that this section could be reserved for another publication as a complete study. 	<p>Thanks for the critically reviewing the paper and mentioning all the changes required. We have incorporated all suggested changed in revised manuscript.</p> <p>As suggested section 2 and 3 has been removed from this paper and will be used in other publication as complete study.</p>
Minor REVISION comments	<ul style="list-style-type: none"> • Under abstract on paragraph no 3 I suggest that the nutrients should be reported as "results exhibited 32.5, 13.1 and 0.612 of Vitamins E, C and A, respectively". • The same should be done on the next sentence reporting macro elements. • The last paragraph of the abstract should start as "Every part of Moringa tree is..." • Row 13, put keywords alphabetically. • Row 24 remove " and put after instead of After. • Row write as "According to the report by [3], globally....." • Row 33 remove brackets and the word "all". • Rows 36, 137, 155, 182, 192, 231, 245 add space before reference • Rows 36 close space between reference and a full stop. • Rows 61, 115, 120, 137, 156, 162, 164, 197, 217, 219, 221 add space between full stop and new sentence. • Row 63 be consistent with spacings between references in the brackets. • Row 68 should read as "nutritional benefits are mostly needed." • Row 71 add Figure title and the source/reference of the figure. • Row 83 if considered in the review article correct "PhD" not Ph. D. • Row 84 add space between "12 Decenber" and "2017 and stored" • Row 86 rephrase to read as "Fresh washed leaves weighing 1.6kg were cold pressed...." • Rows 92-94, statement is misplaced. • Row 97 is it 9.8% or g? • Row 98 put the correct value for calcium content. • Row 101 add spacings "Table 1. Nutritional... and "Moringa fresh"...." • Row 111 add West regions. • Rows 128-131 rephrase to read as "whole leaf flour of Moringa contained 28.7, 129 7.1, 44.4% of crude protein, fat and carbohydrate, respectively, with 3.0 and 103.1mg/100g of calcium and iron, respectively. The protein profile revealed 3.1, 0.3, 2.2, 3.5 and 70.1% levels of albumin, globulins, prolamin, glutelin and insoluble proteins, respectively. • Row 138 add space to read as "Moringa are" • Row 147 remove the word "see" • Row 155 write as "Vitamin B complex". 	<p>All suggested changes incorporated in revised manuscript.</p>

SDI Review Form 1.6

	<ul style="list-style-type: none"> • Row 161 write as “3 hours” • Rows 165, 245, 247 add reference number after et al. []. • Row 172 add space before reference and close bracket. • Row 204 replace the year 1962 with the correct reference number. 56. • Row 208 add space on “They contain”. • Row 211 close space after /. • Row 216 write as <i>Epidermophyton xoccosum</i> and <i>Microsporum canis</i> • Row 218 write as “Moringa seed” • Row 280 replace food with fruits • Make reference 1, 2 and 3 to be similar to reference 10 where year is written at the end. • Reference 10 remove bold. • Remove issue on references no. 14, 15, 16, 17, 19, 30, 35, 37, 45, 46, 48, 49, 55, 58, 59 and 66. • Write complete reference for no. 41 and 42 without et al. 	
<u>Optional/General</u> comments	This paper can be considered for publication subject to proposed changes.	Thanks for your positive note.
