

SDI Review Form 1.6

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_43881
Title of the Manuscript:	Fermentation of Cassava Leaves Improves Provitamin A Carotenoid Bioefficacy in Mongolian gerbils (<i>Meriones unguiculatus</i>)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In Table3, why did the fermented (F) cassava leaves have much higher level of total β-carotene than that of the non-fermented (NF)?	
Minor REVISION comments	Why did not the fermented (F) cassava leaves with higher level of total β-carotene make a difference in serum/liver vitamin A concentration, compared with that of the non-fermented (NF) group (Fig 2)?	
Optional/General comments
