

Editor's Comment:

The authors have addressed reviewers' comments. The presented data have a merit and could be accepted for publication. However, the authors should edit the results section (starting each paragraph by referring to a table/graph is not an ideal way to present data, starting with a "link" sentence introducing the described data is more informative and helpful for the readers)

Editor's Details:

Dr. Constantinos Petrovas
Immunology Laboratory, Vaccine Research Center, NIAID/NIH, Bethesda, USA
