

Corrections:

Correct the sentence: This study is Therefore, aimed at investigating the anti-proliferative effects of lime juice on the ovarian cortex of adult Wistar rats.

Correct the ename of the plant: *Citrus Aurantifolia* (should be "aurantifolia")

Remove the sentence (line 81-83): Spermicide is a contraceptive substance that eradicates sperm, inserted vaginally prior to intercourse to prevent pregnancy.

Correct the sentence by inserting the word "shown" in between "also and "that" in the sentence (line 98-102): "Previous studies have also that there was an irregular pattern in all phases of the estrous cycle of 100% of the rats given undiluted lime juice and in 80% of those given 50% diluted lime juice indicating that lime juice has an anti-fertility effect by altering the histology of the walls of the uterus, prolonging one or more of the phases, reduction in the number of ova shed and blocking of ovulation partially (9).

The word 'Wistar" should be written consistently as "Wistar" (line 105)

Modify the sentence on line 117: "The ethical approval on animal act right was obtained from the Institutional Animal Care Committee of Bingham University, Karu, Nigeria.

Line 180 "P < 0.05 level of significant" should be converted to "P < 0.05"
