<u>Compulsory</u> REVISION comments	<p>1. The structural format has to be changed.</p> <p>2. Please change the first sentence in back ground.</p> <p>3. Please add about the biological sources and various species available.</p> <p>4. Please add important chemical constituents and their biological activities with references.</p> <p>5. In material and methods please start with collection authentication and processing and then animal grouping.</p> <p>6. Please say on what basis you choose the dose. have u carried out the LD50 OR ED50 studies.</p> <p>7. Phytochemical screening must be attached minimum qualitative .</p> <p>8. check the discussion spelling.</p> <p>9. Results and discussion should be separated and more focusive, it should be reformatted as conclusion is unclear, give results in one para and the discuss with more scientific justification.</p> <p>10. Graphical data is missing, tabular representation is unscientific. please add</p>	

SDI Review Form 1.6

	11. Ethical sanction number should be mentioned.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	<p>I felt scientific approach is missing but a good trail and discussion should be short, accurate and sweet. Its difficult and confusing.</p> <p>Please clarify ethical issue, if any</p>
