

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International STD Research & Reviews
Manuscript Number:	Ms_I-SRR_25517
Title of the Manuscript:	Vulnerability and Gonorrhea: A Qualitative Study of Black Women in South Africa
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Still significant issues with English grammar and syntax as well as noun verb agreement. In addition, there is still a problem with the premise since it's the organism that's resistant not the drug. Still needs significant revision to make it readable.	I have completed a grammar review and made significant syntax corrections throughout the entire document. I believe that I have made it more readable and satisfied the issue concerning the organism's resistance and not the treatment regimen.
