PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	<p>I have made comments on the manuscript.</p> <p>There was a bit of repetition in the results section, and perhaps the thematic findings can be better organised.</p> <p>I believe that there is a need to have a more detailed discussion of the study findings and place them within the existing literature – this wasn't done at all in the discussion.</p>	<p>Thank you for the feedback on the manuscript.</p> <p>The results section has been edited to remove repetitions. In addition, the thematic findings have been re-organised in line to highlight the key findings from the study.</p> <p>The discussion section has been written to highlight the public health significance of the study findings and place them within the context of the existing literature on the topic.</p>
Minor REVISION comments		
Optional/General comments
