PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>*** The manuscript is just a description of personal reactions, opinions, perception of the mothers on being diagnosed as HIV positive, the services and care received thereafter. There is no scientific analysis and description of any sorts except for a small demographic analysis of the participants.</p> <p>The topic of the manuscript sounds very scientific and enlightening but what is contains is just personal accounts of individual mothers.</p>	
Minor REVISION comments		
Optional/General comments
