Journal Name:	<a href="#">International STD Research &amp; Reviews</a>
Manuscript Number:	Ms_I-SRR_29915
Title of the Manuscript:	The Effects of HAART on the Renal Functions of HIV Positive Patients in Nsukka, South East Nigeria
Type of Article:	Short Research Article

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
authors have not shown scholarly tenacity or readiness to revise their manuscript according to recommendations. For instance, although they agreed to my suggestions, they refused to update the reference on current HIV prevalence in Nigeria, including Nsukka, Nigeria. They have neither expunged the 20 healthy controls nor added more to increase statistical power of the study. You may wish to accept manuscript, if authors amend the manuscript according recommendation
