Manuscript Number:	Ms_I-SRR_44410
Title of the Manuscript:	EFFECT OF PEER EDUCATION AND PROVISION OF ON-SITE HCT SERVICES ON THE UPTAKE OF HCT AMONG PUBLIC SECONDARY SCHOOL STUDENTS IN EBONYI STATE, SOUTH EAST NIGERIA
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"> <li>-The use of the term study group is inappropriate as both groups were studied. Rather the study group should be renamed as intervention group.</li> <li>-The authors should review the discussion and conclusion. Most part of the discussion contain information that should be in the results section.</li> <li>-The conclusion should be based on the objective of the study.</li> <li>-HIV testing generally raises some ethical concerns. Was institutionalized ethical approval (such as approval from an IRB) obtained for this study? If yes, this should be clearly stated in the text.</li> </ul>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	All well designed study with a good execution but findings are not properly reported. Results showing the sexual behaviour of these students, who are largely considered to be minors, is quite disturbing as the proportion of sexually active persons in this population appears to be high. There is need for suitable interventions to curb this.	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> <p>HIV testing generally raises some ethical concerns. Was institutionalized ethical approval (such as approval from an IRB) obtained for this study? If yes, this should be clearly stated in the text.</p>
