**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>Abstract</b> Line 14: Serum Na<sup>+</sup>, Cl<sup>-</sup> and urea concentration were not showed no significant (p&gt; 0.05) difference -----</p> <p>Line 20: Therefore, we suggest that capsaicin may might be detrimental if used by people to individuals with bleeding and/or blood coagulation disorders</p> <p><b>Materials and Methods'</b> Line 73: for 30 days</p>	<p>Statement modified as suggested. Thanks.</p> <p>Modified as recommended. Thanks.</p> <p>"30 days" added.</p>
<b>Minor</b> REVISION comments	<p>Results Table I and II: Author should state the full meaning of the abbreviations used in the table as part of the legend under the tables</p>	<p>Full meanings of the abbreviations were already stated in section 2.5 (Assessment of haematological parameters). Re-writing them under the tables will amount to duplication.</p>
<b>Optional/General</b> comments	<p>Chilli pepper: is this the botanical name of this plant, if yes, author should italicize it and if no, author should provide the botanical name of the plant in parenthesis</p> <p>The source of capsaicin should be reported under materials and methods. The author only justified the source of chilli pepper.</p>	<p>Botanical name of the spp. used has been stated accordingly. Ref. title of article</p> <p>Thanks. Source has been included.</p>
