

Editor's Comment:

Thanks for providing me the opportunity

My final decision on the Manuscript number: 2017_IBRR_38371, titled: "External quality assessment of transfusion-transmissible infections testing " is as follows

External quality assessment of transfusion-transmissible infections testing is a vital topic for blood bankers and to be assessed by external agency as per laid down standard. In my opinion revised manuscript is acceptable for publication in the next coming issue of the journal [International Blood Research & Reviews](#)
