PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In study design, period of 5 years has been written, kindly mention the exact years from which it started and ended. Frequency of Acute Myeloid Leukemia and Acute Lymphoblastic leukemia is not mentioned though it is quite common, moreover no children were included in the study intentionally if yes than mention in exclusion criteria. 1 patient in age 17-26 years has been diagnosed as Multiple Myeloma that is very rare. Kindly mention in discussion No patient had blood group AB in this study? as it is not mentioned	The study duration/period has been included in the methodology AML and ALL, though mentioned in the introduction, were not found among the cohorts of patients reviewed. The patients reviewed were all adults. None had ALL or AML. Also paediatric patients have been included in the exclusion criteria of the study. This was the observation, no patient had AB blood group.
Minor REVISION comments	Hematological malignancies should be a single keyword not two. Line 53 hematological cancers instead of hematologic Line 107 grammatical mistakes Least common blood group (line 115) typing error Refrence no 7 recheck	Haematological Malignancies now included as a single key word Haematologic changed to haematological in line 53 Line 107; grammatical error corrected Line 115; list corrected to least Ref. number 7 checked and corrected
Optional/General comments
