| <b>Compulsory</b> REVISION comments | <b>Manuscript has several factual errors and poorly written. Manuscript should be carefully revised with proper English and grammar. Introduction and discussion sections should be shortened emphasizing on the scope of this study. Experiments should be conducted with more cell lines. Results are not adding much new information, thus it could be published as a brief note.</b> | <ol style="list-style-type: none"><li>1. First I would like to thank you for taking the time to review our manuscript and writing your comments.</li><li>2. Please specify where are the erroneous facts in this manuscript.</li><li>3. We are unable to conduct the experiments with more cell line mainly due to budget limitations and the fact that we had to use our collaborators' laboratories and equipments in this research.</li></ol> |
