**PART 1: Review Comments**

|                                            | <b>Reviewer's comment</b>                                                                                                                                                                    | <b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | <b>Comments and corrections were made on the manuscript under review. The author is to take note and effect the corrections.</b>                                                             |                                                                                                                                                                                             |
| <b><u>Minor</u></b> REVISION comments      | All specifications including models of the major equipment should be provided in the manuscript. ASTM methods adopted in the methodology should be made known eg ASTM D84 and not just ASTM. | Corrected                                                                                                                                                                                   |
| <b><u>Optional/General</u></b> comments    |                                                                                                                                                                                              |                                                                                                                                                                                             |
