PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Line 18 to 21 please rewrite. Camel by-products is main topic, but research focuses on a variety of material. Camel should be listed with other feedstocks. Line 29 nuclear sustainability is questionable. Better to take it off or give and very elaborate explanation. Line 51 to 56 Please rewrite this section to camel only. There are many biogas plants in Germany that use animal waste products to ferment and biogas production commercially. Add detailed description of the fermenting process Add detailed description of engine tests Line 76, 81, 88 & 96: Add more detail, which tests were actually performed , how much fuel was produced, metrics, data sets, add more detail about the engine itself and the test stand as well as the testing procedures, etc. All tests should be described in detail so another researcher can repeat the tests or build on the tests for further research. All instruments used should be named by brand and number and not generalized e.g. viscose meter Line 131 Bioelectricity test: More details need to be added.
