

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_22158
Title of the Manuscript:	Role of Dysregulation of Signaling Pathways in development and pathogenesis of hepatocellular carcinoma
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	It is a very good review compiling a lot of information regarding multiple pathways involved in hepatocarcinogenesis. The review could be shortened, all pathways could be mentioned and a new variant of the pathway triggering carcinogenesis could be proposed. It will be a creating lots of curiosity and will acts as a stimulus for further work. 1) There are multiple mechanisms underlying the hepatocarcinogenesis and by awaring these mechanisms, early diagnosis for HCC could be possible. 2) Understanding the signaling pathways dysregulated in high risk groups for HCC may provide new diagnostic and therapeutic modalities.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
