SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. Result and discussion parts needs to be presented separately to get a clear view on the study out come. 2. Two earlier studies are reported to observe effect of opium on diabetic rat. These studies are very similar with the present work with signify lack of novelty of this particular project? Hematological Changes in Opium Addicted Diabetic Rats. Int J High Risk Behav Addict. 2013 Winter; 1(4): 141-148. Effect of opium on glucose metabolism and lipid profiles in rats with streptozotocin-induced diabetes. Endokrynol Pol. 2009 Jul-Aug;60(4):258-62.	I made this correction, good notice Objected to this comment, because the content of this research has been done in Egypt, with many variables, but there could be similar to but a few present
<u>Minor</u> REVISION comments	For same data are presented in both Table and Figures. For a particular data sat prefer to give Table or Figure only.	I made correction for this comment
<u>Optional/General</u> comments
