

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_24495
Title of the Manuscript:	The Effect of Aqueous Extract of Buchholzia coriacea seeds on some Biochemical Parameters in Alloxan-induced Diabetic Rats and Normal Rats.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Title: "The effect of of. in normal and Alloxan-induced diabetic rats Abstract: "P <0.95". Please use the actual p-value. Line 37: insert comma after 2010 and delete 'and in 2030'. After worldwide insert 'in 2030'. Line 57: include name of person that authenticate	I agree with the corrections made by the reviewer and have effected them accordingly on the revised manuscript. The data was analyzed using only Anova, The inclusion of Student's t-test was an error. The relevance of reference no. 26 is to show that the method used for the analysis of ALT and AST were adopted from the

	the plant part. Line 127: recast; Write 'results were expressed as mean SD and statistical analysis was carried out using Anova and students t-test'. Please specify which of the data was analysed by either Anova or students t-test. Line 164: table 4 should be on the same page please. Line 168 & 169: indicate the actual p- value (not p <0.05). This is applicable to line 184& line 185. Line 195& 203: indicate the exact p- value that warrant the statements. NB: Pls should be in italics and block letter. Refer to author's guidelines for details. Line 228: Write "this observation..... from previous study by" Line 230: insert full stop after 'group'. Start 'also' with capital letter. Line 250: state the actual p value in bracket after 'significantly'. Line 251: state the actual p value in bracket after 'difference'. Line 269: state the actual p-value in bracket after 'significant effect'. Line 280: use 'state' instead of 'stated'. Line 304: remove full stop after M and also remove comma after N before 'and' References:	method explained in that publication. While reference no. 41 describes possible mechanisms that lead to diabetes according to the findings in that publication. Thank you for taking your time to critically review my manuscript.
--	--	---

SDI Review Form 1.6

	In all cases, years of publications should not be in bracket please. Insert semi colon after year of publications Names of journals should be written in full or abbreviated and not both. Delete pp as applicable to many reference Volumes and number of issues as in ref. 13 should be written thus; 2 (1): 187-193. What are the relevance of reference no 26 & 41?	
Minor REVISION comments		
Optional/General comments
