**PART 1: Review Comments**

|                                            | <b>Reviewer's comment</b>                                                                                                                                                                                                                                                             | <b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>                                                                                                             |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                         |
| <b><u>Minor</u></b> REVISION comments      | <p>The article is complete and has interesting information, only minor comments are suggested:</p> <p>Please change “hrs” by “h”</p> <p>The authors made some mathematical model to determine correlation? Please explain.</p> <p>The Phytochemical composition was no discussed.</p> | <p>hrs was changed into h in the text</p> <p>We did not use a mathematical model. Only, the total phenolic and flavonoid contents are proportionally to the antioxidant activities</p> <p>The phytochemical composition was used to explain the different results. Therefore, it was not discussed.</p> |
| <b><u>Optional/General</u></b> comments    |                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                         |
