

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_26206
Title of the Manuscript:	Characterization and Cytotoxicity of Elastolytic Protease, Asnilase from Aspergillus nidulans
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Abstracts: The aim should be structure in the format as: A. nidulans (NBRC 4340) spores were cultured on which media?. Provide the name of the medium/media used for culturing of the isolate 2. Results and Discussion Table 1 column 2 : nidulans should be written as A. nidulans, column 4 should be A. flavus not flavus 3. References Reference no 9. Togni G, L. should be structured as Togni GL, Aims: To elucidate the pathogenicity of Aspergillus nidulans, elastolytic protease was isolated from the culture supernatant of the isolate, and its biological activity and cytotoxicity were examined. A. nidulans (NBRC 4340) spores were cultured for three days on medium/media	1. We provided the name of medium as YCB-elastin medium. We also added the name into Material and Methods. 2. Table 1 was revised according to instructions of Reviewer. 3. Reference No. 9 was revised for right notation. Togni G, Rahalison L, ... Aims were revised according to instructions of Reviewer. Revised as: A. nidulans (NBRC 4340) spores were cultured on YCB-elastin medium for three days
Minor REVISION comments		
Optional/General comments
