

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_26369
Title of the Manuscript:	The inhibitory potentials of seed kernel methanol extract of Mangifera indica L. anacardiaceae and fractions on metalloprotease-induced toxic effect from Echis ocellatus venom
New title:	The inhibitory potentials of seed kernel methanol crude extract and fractions of Mangifera indica L. Anacardiaceae on metalloprotease-induced toxic effect of <i>Echis ocellatus</i> venom.
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Please review again to include the following corrections. Recast abstract to follow journal specification under the following headings: Aims Study design Place and duration of study Methodology Results Conclusion Line 44: Flavonoids not Flavanoids (Under Introduction Section) Line 67: Envenomed not Eenvenomed (Under Animal Grouping Section) Line 116: Physical signs of envenomation (Under Result Section)	I have re-casted the abstract and has sent it as an attachment and also in the reviewers template. I have effected the correction on line 44, 67 and 116
