SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The present paper can contribute to science development. However it is necessary the authors make some correction: 1- Introduction and discussion have any paragraph with points without references. It is necessary to put reference in all affirmatives done. 2- There are many lines in material e methods that should be remove. 3- Correct Figure 1.	Sir/Madam, I accept your valuable suggestion and have given references wherever you have suggested in the article. With due respect I have omitted the elaborate explanation about Lp(a) assay in the 'Methodology' section as per your instructions. But have retained minimal and relevant part of it in the article, which I have highlighted. I have made the correction.
<u>Minor</u> REVISION comments	The authors can see all considerations in the text.	I have made the necessary corrections as per considerations in the text and have highlighted the same.
<u>Optional/General</u> comments
