

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_27764
Title of the Manuscript:	ROLE OF OXIDATIVE STRESS MARKER MDA IN TYPE 2 DIABETES MELLITUS ASSOCIATED WITH HYPERLIPIDEMIA
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	This is a study that evaluates the role of Oxidative stress (OS) marker Malondialdehyde (MDA) and abnormal lipid levels in the pathogenesis of micro and macrovascular complications of Type 2 DM, thus ,the purpose of the study was to analyse the metabolic deregulation associated with DM which causes secondary pathophysiologic changes in multiple organ systems. Abstract: <i>Suggested to remove all subtitles like: Aims, Place and Duration of Study, Methodology, Results and Conclusions</i> from Abstract.	We have made changes as per the suggestions. All subtitles have been removed in the abstract and structured according to the reviewers suggestions. The abstract has been highlighted also after the required changes. Kindly take note of above changes. We are very much thankful for your co-operation and suggestions which could make this manuscript more meaningful.
Optional/General comments	Manuscript is structured properly. <i>It is recommended after incorporating above suggestions.</i>
