

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_28351
Title of the Manuscript:	Oils of Nigella sativa L. and Cinnamon zeylanicum inhibit the testicular cytotoxicity and genotoxicity induced by mancozeb in rats
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	This study investigated the possible protection effects of <i>Nigella sativa</i> oil (NSO) and <i>Cinnamon zeylanicum</i> oil (CZO) in alleviating the toxicity of mancozeb on reproductive performance in adult male rats. The results indicated that NSO had higher protective effect than CZO against mancozeb-induced reproductive toxicity. This paper will be of great interests to our readers.	Thank you for your great and valuable comments.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
