SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Thanks for choosing me to review this nice article, In the abstract the author mentioned that (BMI was significantly positively correlated with the different BMD) this statement does not come with the information in the result section , what mentioned in the result . The author did not report what is the method he used to assess the Physical activity, Also it is advisable to mention the content of the questionnaire he used in his center.	The correlation between BMI and the different BMD parameters is presented in table (5). The authors add a descriptive paragraph in the result section. A brief description of the questionnaire that assess the physical activity and other parameters is added in the sector of subject and method . The questionnaire is sent as attached file
<u>Minor</u> REVISION comments	In the results section, paragraph 3 first line, (levelon) level on. Second line in the same paragraph (repreents) represent. Some punctuations need to be adjusted(to leave distance after) and full stop)	Done
<u>Optional/General</u> comments
