SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	1. Pls define some of your abbreviations as used in the write up, unless if they are standard ones e.g DNA, RNA, etc 2. Under your 'Materials and Methods' (Cell culture) insert ° (degree) between '37' and C. 3. Check this quote from your discussion: "consistent with our previous reports indicating that plasma HDL-C levels were higher in subjects with Y2R expressive SNPs rs6857530AA plus rs6857715CC than those with Y2R inexpressive SNPs rs6857530GG" Please bring out a reason for the above assertion, so that more meaning can be derived from the work. 4. Try and bring out recommendation from the findings you got, equally be very explicit in selling out the information you got from this work.	1. I added definition of non-standard abbreviations that appeared at first. 2. I added degree between 37 and C. 3. I added the sentences to the last paragraph of the "Discussion" section to clarify the meaning. 4. To be explicit about the information of this article, I added the sentence to the last of the last paragraph in the "Discussion" section.
Optional/General comments	I suggest the Tables and Figures inserted under "Discussion" section should be moved to "Result" section. References should only be made citing the Table of Figure number while discussing. Thanks	Tables and Figures are moved to "Result" section. References of Table and Figure number were deleted in the "Discussion" section.
