

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_23362
Title of the Manuscript:	EFFECT OF CO-ADMINISTRATION OF CHLOROQUINE PHOSPHATE AND CEFUROXIME AXETIL ON SERUM LIPIDS AND LIPID PEROXIDATION IN ALBINO WISTAR RATS
Type of Article	Original research Articles

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
There are a lot of spelling errors like as "10 mi8nutes" In the methods section they did not define their experimental design clearly. Currently I did not understand that how many days they gave the drugs to the rats?. Also, they did not discuss their data properly, in revised paper presently. From the literature "Sachet JC, Borba EF, Bonfa E, Vinagre CGC, Silva VM, Maranhao RC. (2007). Chloroquine Increases Low-Density Lipoprotein Removal from Plasma in Systemic Lupus Patients. <i>Lupus</i> 16(4):273-278. These data almost known in previously. The results of the paper did not give any further information about the literature. So, unfortunately, I am regretting the paper because of poor data.
