### **PART 1: Review Comments**

|                                            | Reviewer's comment                                                                                                         | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | Line 183: According to figure 3, FF showed least urinary fluoride excretion and not FC. Figures 1,2 and 3 lack error bars. |                                                                                                                                                                               |
| <b><u>Minor</u></b> REVISION comments      |                                                                                                                            |                                                                                                                                                                               |
| <b><u>Optional/General</u></b> comments    |                                                                                                                            |                                                                                                                                                                               |
