

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_26369
Title of the Manuscript:	The inhibitory potentials of seed kernel methanol extract of Mangifera indica L. anacardiaceae and fractions on metalloprotease-induced toxic effect from Echis ocellatus venom
Neew title:	The inhibitory potentials of seed kernel methanol crude extract and fractions of Mangifera indica L. Anacardiaceae on metalloprotease-induced toxic effect of <i>Echis ocellatus</i> venom.
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
This is an excellent work to be published in the Journal of Int. J. Biochemtry Research & Review. Authors have revised the manuscript as required---Introduction portion has been modified, References are arranged as per journal requirement. Therefore, the article in this form may now be accepted for publication.	

Reviewer Details:
