

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_26069
Title of the Manuscript:	Comparative Investigation of the Effects of the Commonly-consumed Aqueous Extracts of Hibiscus sabdariffa (Zobo Drinks) on Body Weight, Glucose Level and Lipid Profile using Normal Wistar Albino Rats
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	According to the methods, there were five groups of six rats each, but the n was 5 in TABLE 1, 3, 4. There were large deviations of the initial weights in week 1 in TABLE 1, e.g., the control group was 136.8 ± 2.82, but Group E was 180.2 ± 4.60..... No symbols of significant were labeled in TABLE 1.	1. Corrected. It was six groups of five rats each. 2. During grouping, we made sure that rats of the different sexes were not mixed in a group. This really made it difficult to have rats with very close weights. However, the average weight of each group was taken and the corresponding concentration administered to each group was calculated based on such weights. Therefore, regardless of the deviations in weight, all the groups received the same concentration 3. The changes in weight were calculated as differences between the initial and final weights. These differences were then expressed as percentages.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
