

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_31021
Title of the Manuscript:	The potential of blood gases and plasma ammonia levels for early detection of pediatric patients having metabolic disorders
New Title:	The potential of blood gases, plasma ammonia levels and urine analysis for early detection of some inborn errors of metabolism
Type of the Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors have made substantial efforts responding to issues earlier raised. A few corrections are made and highlighted in the manuscript in red colour. The last six lines of the paragraph on study limitations should be deleted. There appears to be a mix-up with reference no 13 cited on page 13. Goldberg RN et al is listed as no 20 on the reference page.	1. The corrections that made and highlighted in the manuscript in red colour have been taken into consideration. 2. The last six lines of the paragraph on study limitations has been deleted. 3. The reference number 20 in the discussion section has been corrected.
